

## **SÉRIE PHOTOS 8 : STREET ART**

L'univers des villes passionne Maurice Renoma.

Il profite de ses nombreux voyages partout dans le monde pour s'immerger dans leurs cultures et ressentir les vibrations créatives qui surgissent de toutes parts...

L'art qui s'exprime dans les rues l'interpelle tout particulièrement et il a décidé de lui rendre hommage en créant une nouvelle série de photos: Street Art.

On y retrouve l'univers de Renoma associant photos et graphisme délirant.

The atmosphere of cities fascinates Maurice Renoma.

He takes advantage of his numerous trips around the world to immerse himself in their cultures and feel the creative vibrations that shoot up all over the place...

He is particularly concerned by Art expressing itself in the streets and he decided to pay tribute to it in designing a new collection, in partnership with Les Ateliers Philippe Coudray, entitled Street Art.

The world of Renoma is still present mixing photos and wild graphic design. As in the previous collections, each piece of furniture is signed and numbered.
