**[EXHIBITION]**  
**OUT OF THE AQUARIUM!**  
*Mythologies of the Gold Fish  
& Appart Renoma inauguration*

September 24 - December 24, 2020

**L'Appart will be inaugurated with** Cristobal's absurd and comical vision, with the **Mythologies of the Gold Fish** exhibition, from September 24, 2020.

Cristobal, the small plastic fish, guides the visitor through an immersive scenography **that encourages ecological awareness: plastics, turning into waste, are everywhere and silently destroy our planet, contaminating our rivers and oceans.**

This exhibition forces us to think about our relationships, our (over) consumption by playing on the contrast between a bourgeois, classic apartment, and a gallery of the absurd.
