[ART] "Scène Symphonique" **Painting and photography exhibition**

Maurice Renoma invites William Bakaimo and Famakan Magassa for an original exhibition entitled "Scène Symphonique" which will take place from April 9 to May 29 at L'Appart Renoma, at 129bis Rue de la Pompe, Paris 16th.

Like a skillfully rhythmic symphony, this new exhibition features the works of three artists, to initiate a strong and impactful pictorial composition. This exhibition is a cross score of three artists.

For their first Parisian exhibition, Bakaimo and Magassa propose to revisit their states of consciousness through creatures or humans that have emerged not from nowhere but from an imagination that flirts with reality.

Maurice Renoma confirms his support to contemporary creation and to artists with a singular identity who dare to deal with strong themes outside the box. The

fashion designer and photographer, a man of art and convictions, thus positions himself above trends, highlighting challenging and unsettling artists.
