## [ART] A plastic goldfish to denounce pollution

This year 2023 **Cristobal the goldfish** - the faithful companion of Maurice Renoma - criss-crosses the Normandy coast and invades the beach of **Trouville-sur-Mer**. See you on **Saturday April 1, 2023** for the inauguration of the outdoor exhibition: from the beaches to the quay, passing through the Cures Marines Hotel and other iconic places in this city, Maurice Renoma offers an offbeat walk following in the footsteps of its goldfish in its wanderings. Cristobal will stop in Trouville-sur-Mer **until the end of October 2023**, with a very special date: the 23rd of this month will be **Maurice Renoma's 60th anniversary of creation and counterculture**.

Since 2017, Maurice Renoma has taken this artistic alter ego on a journey around the world to denounce the ravages of pollution linked to overconsumption and the degradation of collective memory. Protagonist of his latest exhibitions and artistic experiments, Cristobal is the symbol of Maurice Renoma's ecological and humanist reflection, presented in the form of fables and mythologies.

**[NEWS]**

**« Les Mythologies de Maurice Renoma »  
April 27, 2023 at the Depardieu Gallery in Nice**

Maurice Renoma presents an anthology of his *Mythologies*, images featuring a joyful hybridization between women, men and animals that questions our very current desire for visibility, which by a disturbing paradox, inevitably leads to our social dilution. Does the habit, or the filter, make the monk?

**Galerie Depardieu**

6 rue du docteur Jacques Guidoni, 06000 Nice

Exhibition until June 3, 2023

Free admission from Monday to Saturday from 2:30 p.m. to 6:30 p.m.
